

A Basic Tutorial for

STEP 1 | Creating an account

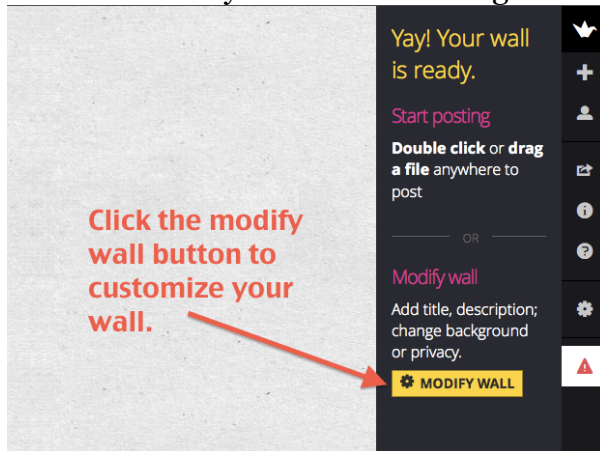

- Go to www.padlet.com and sign up.

STEP 2 | Creating a wall

- To get started, click Build a wall.

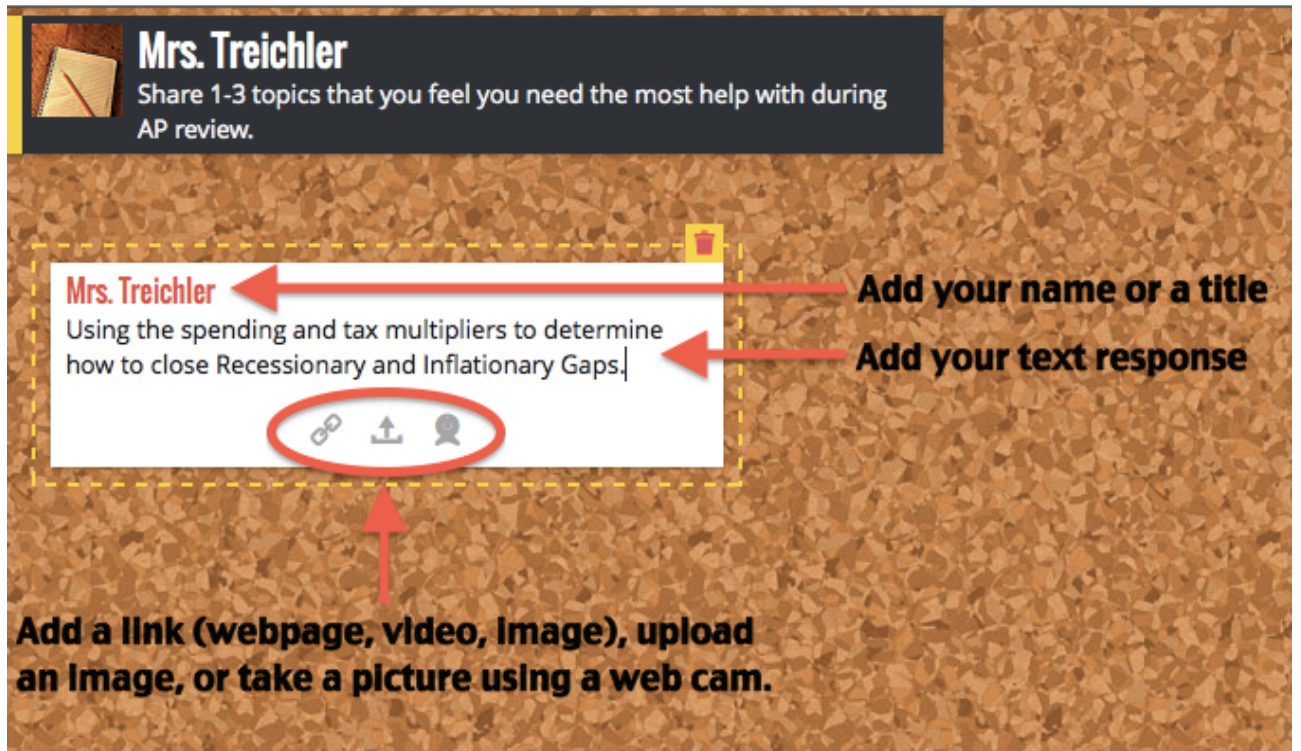

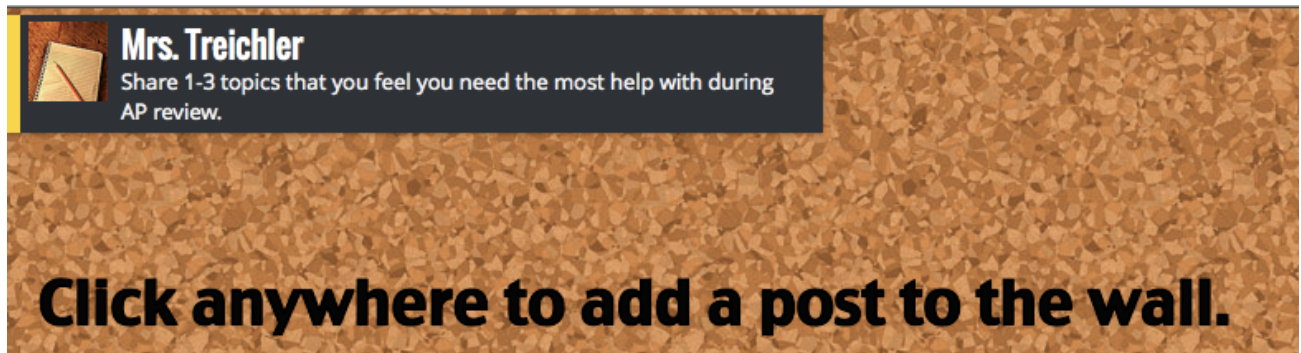

- Click the Modify Wall button to begin customizing your wall.

- Click on each of the tiles on the right side of the screen to customize your wall.

 PROFILE	Profile	Customize the image associated with the wall, the title of the wall, and the wall description <ul style="list-style-type: none"> Teachers use the title/description fields to pose a question or share the assignment directions
 WALLPAPER	Wallpaper	Set the background for your wall
 LAYOUT	Layout	Choose how posts appear on your wall <ul style="list-style-type: none"> Freeform: posts can be placed anywhere Stream: posts are placed one below the other
 PRIVACY	Privacy	Choose how public you want your wall to be <ul style="list-style-type: none"> Hidden link is the best option when using Padlet with students
 NOTIFICATIONS	Notifications	Choose if you want to be emailed each time someone adds a post
 ADDRESS	Address	Allows you to create a custom URL for your wall
 DELETE		

STEP 3 | Adding posts to a wall

STEP 4 | Sharing with others

- Click on the  to view the share and export options.
 - SHARE:** You can share your wall with others via social media.
 - EXPORT:** You can export the contents of your wall via PDF, Excel, or CSV. *I love this feature; it's a great functionality that assists with tracking and evaluating student work.*
 - MOBILIZE:** Invite others to collaborate by sharing the URL or the QR Code!
